# Understanding Mutual Fund Categories

## Children's Gift Funds

### What Are They?

*Children's Gift Funds are goal-based mutual fund schemes specially created to help parents plan and invest for their child's long-term future—like higher education, study abroad, or entrepreneurial dreams.*

### Smart Lock-in Feature

*These funds come with a lock-in period until the child turns 18, ensuring the investment remains untouched and grows steadily over time. This acts as both protection and discipline in goal preparation.*

### How Do They Work?

*Most Children's Gift Funds follow a hybrid investment strategy:*

- **Equity** – For long-term capital growth
- **Debt** – For capital protection and lower volatility

*This mix provides growth with balance, which is perfect for future-oriented goals.*

**Track Record:**

Category	Plan	Returns (%)					
		3 Months	6 Months	1 Year	3 Years	5 Years	10 Years
Solution Oriented - Children's Fund	Regular	1.52	-2.53	7.69	12.66	16.83	10.84

*Returns as of 30/04/2025*

**Pro Tip:** "A Children's Gift Fund isn't just an investment—it's a long-term commitment to your child's dreams. Start early, stay consistent, and let time do the magic."

# Case Study/Investor Story

## How Amit made his dream of Exotic Vacations a reality for a lifetime

Last week, during a casual tea break, two colleagues—Amit and Bharat —were chatting when Bharat heard something unexpected. Amit had just applied for 12 days' leave for a family vacation to a beautiful, exotic destination. Surprised and curious, Bharat asked, "That sounds amazing! How did you plan this?"

Amit smiled and shared the secret—two years ago, he started a customized SIP with help from a Mutual Fund Distributor to create a vacation corpus that allows him to take a relaxing family trip every alternate year, without disturbing other financial goals. It was a limited-period SIP for 20 years, designed to support alternate-year withdrawals, so he could enjoy holidays even till the age of 80 and also leave a substantial corpus beyond that.

Bharat was amused and inspired by how a simple and disciplined SIP, with expert guidance, could turn into a lifetime of beautiful memories. He immediately asked for the MFD's contact to create a personalized plan of his own!

A smart SIP today can fund your family's holidays for decades, even lifelong.

## Topic: Summer Money Lessons for Kids (and Parents!)

Use the vacation to teach kids about money:

- 1 Set up a piggy bank or minor bank account
- 2 Teach budgeting through holiday shopping
- 3 Share stories about how investing works
- 4 Show them how your SIPs grow
- 5 Open a minor mutual fund account (with you as guardian)

Learning about money early sets them up for a secure tomorrow.

## Timeless Financial Wisdom:

Financial literacy is not an end in itself, but a step-by-step process. It begins in childhood and continues throughout a person's life all the way to retirement. Instilling the financial-literacy message in children is especially important, because they will carry it for the rest of their lives."
